

Testing Incremental Change Sample #2

Team Name: *Primary Care Clinic* Change Concept Name: *Standardize Process*

Cycle Number: *1* Date form begun: *9/1/2003* Date form complete: *9/30/2003*

Plan

Our purpose for this test is: *Use a screening Tool*

Specifics:

What will we do? *Trial Use of the PHQ-9*

Where will we do it? *On patients presenting for mental health counseling*

Who will conduct test? *Ms. Ramos, MSW.*

When will we start and stop the test? *Start: 7/1/03, End: 7/30/03*

How will we collect data? *Social Services will collect the data.*

This is the (KEY) change ...the specific change which will result in improvement

We predict that this test will: *The patient will respond appropriately to the PHQ-9 and the interviewer will correctly score the results.*

Thinking ahead – what will we do if this test succeeds? *Use in all our clinics.*

STOP Here! Do not continue until after the test of change has been completed.

Do/Did

What happened?

Study

How did the results of the test compare to our prediction?

What does the data show?

Summarize learning:

Act

Based on our learning, what will we do next?
